

A modern bedroom interior featuring a rustic stone wall. A large, dark, abstract painting is mounted on the wall. A contemporary bed with a light-colored headboard and a dark blanket is positioned in the center. A small bedside table with a vase of dried flowers is next to the bed. The floor is made of large, dark tiles. A window on the right side shows greenery outside.

When buying new furniture for your bedroom, it's okay if you feel a bit overwhelmed with so many pieces of furniture available in the market that would perfectly fit the design. Today we want to show you how to create a timeless, classy and lush interior design for your **bedroom**.

This lush bedroom design was only possible with a combination of Amanda Bed, Megan Armchair and Taylor Collection - if you want to bring a stylish look into your bedroom, this composition is mandatory!

Functionality, style, colour and comfort are the four pillars of proper bedroom design and these ones offer you all in one along with a sense of **industrial approach** that follows you around the room.

Amanda Bed is an outstanding design inspired by the **contemporary** traces we all love and it looks amazing in every room she is. Available in various sizes and customizable in every material and finish, Amanda Bed finds herself elevated from the ground for a **luxurious touch**.

This bed is characterized by its wide upholstered headboard with vertical double-top stitching and integrated wooden bedside tables on both sides, giving this piece a unique personality for the most exquisite bedrooms and an additional function.

Amanda Bed is perfect for the ones who are looking for **gracious detailing** and a **refined essence**. Imagine yourself looking at your garden through the window in a relaxed moment. So good!

Regardless of your choices on the design of your bedroom, you will have to consider many aspects such as the size, shape, and the amount of storage room you have; but keep in mind that the furniture is also important since it affects the **comfort** level of your sleeping area.

For even more moments of soothing and calming vibes, we decided to create a reading corner in this **blue-hued bedroom design with bright shades**, with Megan Armchair. One of the best feelings in the world is arriving home and resting, reading an intriguing book to distract us from all the stress we faced that day.

Megan Armchair made this moment of **self-care** possible thanks to its modern aesthetic that can be both objet d'art and a

relaxing statement piece. This seating option is one of the most versatile and sustainable armchairs in our upholstery collection.

In this lovely bedroom, Megan has a **distinctive and minimal style** with different materials and finishes, inspired by nature.

This is an aesthetic element as well as a practical solution to your everyday living needs. With a wooden structure, the deep convex back flows into the armrests in a harmonious craftwork design. It also features two single-top stitching for extra comfort.

Defined by enveloping lines and soft curves, Megan Armchair is the go-to choice for both residential and public venues thanks to its **timeless** design that never goes out of style.

Matching this blue bedroom design, the same modern aesthetic shows up with the lovely chest of drawers Taylor, which is part of the Taylor Collection.

Taylor Collection is a set of three bedroom pieces for a cosy decor: a nightstand, a tall dresser and a chest of drawers.

The structure is mainly made of wood but the highlight goes to one side. This side is upholstered in a fabric of your choosing upgrading the final result to a combination of **great taste** and **exquisite materials**.

Every element tells an intriguing story, evoking a **modern feel** that allows the composition of a perfect bedroom set.

Just as you are influenced by **colours, shapes** and **textures**, so is the bedroom one of our biggest inspiration sources. Both calm and soothing, this bedroom is perfect for serene and relaxed moments thanks to this harmonious composition.

Domkapa's **furniture** pieces are the result of 100% Portuguese **craftsmanship** with several years of experience. Find the perfect **upholstery** item in our showrooms all over the world or even on our website **domkapa.com**.
