A TIMELESS MODERN LIVING ROOM

domkapa.com | info@domkapa.pt

Our home needs to make us feel safe and **comfortable** and **modern aesthetics** never disappoint.

The statement piece presented in this work of art is Shinto Sofa: a modular seating piece that radiates **comfort**, **elegance**, and **modernity** along with its **functionality**. Endless configurations in curvature seating to suit every style of an interior design project.

In front of the main **upholstery** item is Inside Coffee Table with a **clean aesthetic** and a japandi feel. Its x-shape provides an optical illusion and guarantees a **unique look** most demanding interior designs.

Its remaining family is not far behind: Inside Coffe Table has the pleasure to be accompanied by its sister Side Table Tall.

Made with black texturized steel and gold brushed stainless steel, the **clean design** of this **contemporary** side table and the **minimalist** expression create zen spaces. Its simple design is perfect for multifunctional spaces.

An **unexpected combination** of textures and shapes is brought by Cleo Mirror and Pouf Low.

Cleo Mirror is the definition of "simple without being boring" - the fundamental option for **contemporary** interiors with a **timeless** feel that will set the mood in every room, especially in beautiful bedrooms.

Down to earth, Low Pouf's **classic designs** will bring extra **elegance** to every interior decoration with its special shape and combination of **high-quality** materials.

This stylish look is the solution created by the mix of **premium materials** and 100% Portuguese **craftsmanship**. Be bold! From armchairs to sofas or even casegoods, at Domkapa you will have the power to create the **interior design** project that you always wished for.
