AN AMERICANO FLAIR

domkapa.com | info@domkapa.pt

domkapa

A living room design with a **modern aesthetic** that is also cosy is one of the most significant characteristics we can have in our home decor, but when you blend them with *rich materials* and a *vibrant colour scheme* you will deliver the right amount of elegance and comfort.

This room reinforces the importance of having the right furniture pieces, having in mind a *less is more* philosophy that always accompanies us during the journey of creating the perfect interior design.

Its poetic appeal evokes a story of **luxury** through the balanced touch of natural elements. And the occasional pops of colour couldn't go unnoticed! They offer **sophistication** to this living room, turning it into a classic and, at the same time, a modern space.

The fusion between *soft colours* and the *boldest ones* presents a **playful influence** we never thought we needed – perfect for celebrating Father's Day! The pieces balance themselves and, as your eyes move, you will find soothing vibes through refined complimentary features and a sense of authenticity. It could only be Domkapa's furniture, right?

This is how you can compose a luxe environment, starting with the graceful Chloe Sofa that breaks the **americano influence** around the room.

Chloe Sofa strikes in with a balanced aesthetic and **refined materials** for an outstanding interior. As promised, it is the statement piece in the space, committed to a chic and **rich look** with a decorative pillow.

domkapa

This seating stars a wooden or metallic base and upholstered seat and backrest that can elevate any room. A stitched line is dividing the piece for easy assembling and transport while double-top stitching is seen across the sofa for a luxury touch. The soft curves prevail throughout every element of Chloe Sofa which is anything but impressive.

And we can not forget about the functionality provided by Panton Table Set: a coffee table and a side table to make everything beautiful. These **generous shapes** and **curvaceous designs** have a top welded to the conical base to serve various functions that can be included in both domestic settings and public venues.

Panton Table Set presents itself in the living room for the **60's effect**, embellishing the design and taking it to another level.

On another hand, Edison Armchair teaches us all about a new face of the colour spectrum – a masterclass when it comes to furniture design – where you can feel a **summer infusion** flowing around you.

The **epitome of comfort** is now reached thanks to the slight curve of the back and seat. Its four legs structure supports the upholstered seat for a simple yet eye-catching piece that will enhance the beauty of a design project.

Edison Armchair is responsible for the juicy dynamic impact, perfect for every kind of environment.

To give an americano meaning to this living room, Rachel Pouf pledges to enchant and displays how to populate a stunning design allied to a rich and coffee-coloured hue for a timeless character.

Rachel is made to bring **extra comfort** and it is available in two sizes for the most demanding desires as its versatility allows it to be used as an extra seat or footstool.

As you can see, **nature has a deep influence** on our designs. However, we don't fail to remember that comfort and elegance are part of our identity. It helps us to offer you not only that but also fierceness and timelessness.

This sleek design proves that our design and production team, together, can do everything you need to achieve success. Contact us and you will see your dreams come true!
