If you are looking for festive opulence in your bar design, you came to the right place. Today we bring you an exquisite interior design solution for every style. Its name is Eva Bar Chair and it is here to revolutionize all commercial projects it is in.

Eva Bar Chair was inspired by the knowledge of our ancestors that loved craftsmanship as much as we do nowadays. It is a sign of strength yet delicacy of the hands that know how to create comfortable upholstered pieces for memorable moments.

It has elegance in each detail and exhales sophistication every time you look at it. And, when you try it, it brings an amazing sensation of comfort and happiness.

It was conceived to be part of commercial interior design projects that aim for a special vibe brought by a vintage atmosphere blended perfectly with the contemporary design.

The detailed woven-work technique on the back promises to make a statement in any room as distinguished as it is. The upholstered seat makes sure of a comfortable experience while the gentle and soft lines guarantee this design is adaptable to any environment.

Also available in a counter stool version, this Bar Chair is part of Eva Family, composed of a chair, an armchair and this lovely piece. This family promises to provide a fun twist to your sustainable, classic Christmas and we dare you to try it!
