DREAMY BLUE LIVING ROOM

domkapa.com | info@domkapa.pt

A living room needs to be a **warm** and **comfortable** place for you to spend some quality time. However, make sure you also add the functional component we all look for nowadays. After all, multifunctional spaces and savvy storage are trending right now!

It must be **stylish** but simple, and the furniture, which needs to be mindfully chosen, should be able to last for years without losing its appeal. For these reasons, we brought you this modern home decor with a **minimal aesthetic** that invites you in the second you look. Shall we look?

The chicness and rich look of this modern home decor are finished with the comfort of Disruption Sofa with the beautiful, lovely Ada Almond Pillow with a spiced marmalade vibe – a classic autumnal shade.

Disruption sofa seduces with its curvy lines and minimalistic design, specially when combined with these dreamy blue materials. A stronger and imponent look is placed for its **ergonomic proportions** and **sophisticated look**.

A very sleek aesthetic appears where Ada Almond Pillow is placed. It is the perfect accessory for every design, for its square shapes.

As you move your eyes through the living room, the elements used not only provide an exuberant and light look, but a very contemporary and **timeless design** offering a poetic appeal where every detail tells a story.

Matching with Disruption Sofa and Ada Almond Pillow, the Family Inside Table was chosen for an industrial touch in an **autumn atmosphere**. Inside Family is well-combined in this spiced marmalade vibes, being a contemporary design with an industrial for the most demanding scenarios.

The space's eye-catching elements are wonderfully complemented by Kate Pouf in an unpredictable color and material. Fully upholstered, Kate Pouf is the ultimate comfortable experience to be added to any project.
