**LIVING ROOM
WITH INDUSTRIAL STYLE**

domkapa.com / info@domkapa.it

domkapa

This industrial living composition is perfect for every kind of space: whether you are working on a waiting room for your interior design studio or just planning on a reading room on your client's project, these pieces will make wonders. Meet Mano Coffee Table and Stranger Armchair.

This space pairs industrial style with **minimalism** as it makes the most of your space impacted by its clean lines and simple shapes, but also for the careful selection of the furniture, having always in mind its comfort and function. While Mano Coffee Table provides **functionality** for its purpose and **versatility** for its design, Stranger Armchair offers the **wow-factor** we all look for in a successful design. The outcome is something subtle but impacting, with an unmistakable flavour.

And that's it: here is the secret to blend a minimalistic philosophy into something that has a story to tell – and a good one, as you can expect from Domkapa.

Domkapa is an upholstery brand based in Portugal focused on **comfort** and functionality that blends the finest craftsmanship with high-quality materials into timeless products.
