READING CORNER

Comfortcore & Opulent Details

domkapa.com | info@domkapa.pt

With the new year comes multiple challenges we have to face and goals we have to reach. One of them may be actually reading more and, for this to happen, you need to create the right conditions in your space for you to feel available to do it.

This **reading corner** needs to be comfortcore for the touch and eye-catching; giving you the feeling that reading is more interesting than ever. And a reading corner is actually easy to compose, especially when you pick the right furniture options.

Composed by the Alexander Family, the space we bring you today is a reading corner, where every opulent detail stands out without leaving behind comfort and connection with the atmosphere. Here, everything feels like a warm embrace and encourages a mindful approach to your day-to-day, giving you time to do every task on your list.

While Alexander Armchair gives you the classic look you deserve, Alexander Ottoman provides you the comfort and cosiness you desire.

Alexander Armchair is an innovative solution linked to a functional and quite traditional shape powered by an embracing structure where the back smoothly connects to the seat cushion and ends on a swivel base. This timeless armchair coordinates perfectly its materials in a one-of-a-kind piece, especially when presented with its ottoman version.

Alexander Ottoman embodies functionality with a minimalistic design that combines soft proportions and unique lines that recall a warm glow and serenity. This design holds a sensational feeling while its soft curves pay attention to classic design and ergonomics, contributing to endless comfort.

domkapa

Alexander Family was developed to play a statement role in an outstanding design, especially in this reading corner.

Domkapa is an upholstery brand based in Portugal that presents several similarities to the haute-couture philosophy focused on the value of a "made by hand". Since 2009, Domkapa challenges its team to create the perfect daily meeting between design and comfort. Our design team works side by side with the production and this organic synergy allows the creation of innovative designs.
