**VINCENT BENCH:
A TRIBUTE TO CRAFTSMANSHIP
AND ELEGANCE**

domkapa.com | info@domkapa.pt

Handicraft is an ancient form of human expression, and is known for its elegance, beauty and authenticity. The result of this art is a unique piece with its own style. Thus, today's main character is the Vincent Bench.

With a traditional aesthetic and a modern design, the Vincent Bench is a tribute to craftsmanship and elegance. It is a versatile piece that can be used in different environments, from living rooms to bedrooms, adding a touch of elegance and authenticity to the space.

Its robust and expressive design gives it a distinctive look, making it a unique and memorable piece.

Beyond its functional benefits, the Vincent Bench is a work of art in its own right. Its combination of natural materials, elegant lines, and attention to detail make it a standout piece that will enhance any space.

The structure in Fume Stained Ash, contrasts with the upholstered seat in Desna Agave, creating a perfect balance between tradition and modernity.

It is available in two sizes, thus adapting to different needs and decoration styles.

Every Vincent's detail expresses character with its honourable high quality materials translating to a long lasting product.

Domkapa is an upholstery brand based in Portugal that has several similarities with the haute-couture philosophy focused on the value of a "handmade". Since 2009, Domkapa challenges its team to create the perfect daily encounter between design and comfort. Our design team works hand in hand with production, and this organic synergy allows the creation of innovative designs.
